

Food and Agriculture  
Organization of the  
United Nations

**Seminar «Environmental, social and economic assessment of bioenergy projects using  
BEFS OLT (agricultural residues)»**

Location: Small conference hall, 2<sup>nd</sup> floor, 55, Volodymyrska Str., Kyiv, Ukraine

**5-6 July 2016**

The Bioenergy and Food Security Operator Level Tool (**BEFS OLT**) (agricultural residues) was developed within the project “Supporting Public and Private Sector Capacities in Sustainable Agricultural and Bioenergy Investments”, under the collaborative agreement between the Food and Agriculture Organization of the United Nations (**UN FAO**) and the European Bank for Reconstruction and Development (**EBRD**).

The main purpose of the BEFS OLT (agricultural residues) tool is initial screening of bioenergy projects as to assess their environmental, social and economic performance. Hence, the assessment results provide an indication of the projects’ strengths and weaknesses and support decision making about further developments.

**Agenda**

<b>Tuesday, 5<sup>th</sup> of July 2016</b>	
09.30-10.00	Registration of participants.
10.00-10.30	Introduction of participants, training and project. Introductory speech from FAO representative. Presentation on the prospects of bioenergy development in Ukraine.
10:30 – 11:00	BEFS OLT (agricultural residues) <ul style="list-style-type: none"><li>• Objectives</li><li>• Scope - Crop residue and Livestock residue pathways</li><li>• Structure<ul style="list-style-type: none"><li>○ <i>Initial questions</i></li><li>○ <i>Indicators</i></li><li>○ <i>Scoring system</i></li></ul></li><li>• Screening flow</li><li>• Report and the interpretation of results</li></ul>
11:00 – 11:30	<i>Coffee/Tea Break</i>
11:30 – 13:00	<b>Exercise:</b> Crop residue pathway <ul style="list-style-type: none"><li>• Intro</li><li>• Application of tool</li></ul>
13:00 – 14:00	<i>Lunch</i>
14:00 – 15:30	<b>Exercise:</b> Crop residue pathway (cont.)
